Together we can double your charitable donations.

Traditions run strong at Cummins and one tradition the company values above all others is its involvement in the community through its employees.

At Cummins we are proud to support your charitable efforts through the Matching Gifts Program. The program recognises the generosity of Cummins employees in the community by matching **dollar for dollar** donations to approved charities. Approved charities are evaluated based on the social, environmental and educational guidelines of the Cummins Foundation.

Charities must also be recognised as a deductible gift recipient (DGR) meaning donations to the charity are deductible for taxation purposes.

People are at the heart of everything we do and we are pleased to extend this commitment to all employees.

How it works

A list of nominated and approved charities can be found on www.cumminsmatchinggifts.com

Any donations that you make to an approved charity, out of your pay, will be matched **dollar for dollar** and detailed on your payslip.

The list of approved charities is periodically reviewed and updated.

If the charity that you currently or would like to donate to is not on the list, we invite you to submit the charity for consideration on the form opposite. Return your completed form through the internal mail to the address on the back.

We will evaluate all nominations based on the social, environmental and educational guidelines of the Cummins Foundation.
